

Information on the use, read carefully!
ProVens tbl.

A nutritional supplement containing the bark of Pinus Pinaster, green tea, and blueberries extract.

It is our duty to take care of our health.

To be healthy is probably the biggest wish of us all. There are no universal instructions how to take care of our health. However, there are certain main healthy lifestyle principles which could be applied in order to influence our health. They definitely include varied and balanced diet containing sufficient amount of nutrients, such as antioxidants.

How the ProVens affects?

ProVens contains a mixture of plant extracts: the extract from pine bark , the extract from green tea, and the blueberries extract. The main components of these extracts are bioflavonoids , polyphenols-catechines (green tea), and anthocyanins (blueberry extract). This mixture of substances belongs to the group of antioxidants. Antioxidants neutralize free radicals and protect thus the cells against the damage.

Who is the ProVens preparation suitable for?

For all those who need to increase the level of antioxidants.

How to use the ProVens?

Adults are recommended to take 1-2 pills a day with meal or after meal, best during the day.
